Contest:

Greetings from Ville OH2MM/ZD3Z and Martin OH2BH/ZD3X:

BANJUL, Gambia, West Africa, is our second home. We have many friends here. Many pleasent memories are brought back here. It is from here that we have made several outstanding contest results. We know that we are always welcome here.

When we leave everything behind during the dark winter months and fly far away to Africa we really feel alive. Exotic, short, rare DX call-sign, QTH at the shore of the glittering Atlantic Ocean and refreshing ice-cubes in the glass, that is the life we dream of.

The next time that you hear ZD3X or ZD3Z on the air, you will know that we are again in the land of our dreams –, Gambia. Give us a call, but please do not remind us that time goes by so fast. Or – better yet – join us and enjoy the greatest hobby in the world at its best.
